

## CONFERENCE VENUE

The Hyde Conference Venue is a purpose built conference centre and meeting centre in Cape Town. The redevelopment of the Hyde has allowed the construction of a state of the art conference and meeting centre with a large function area and lobby bar. The conference room walks out onto a large courtyard and all conference facilities have abundant natural light.

The Hyde Conference Venue has built-in audio visual and IT equipment including data projection and complimentary Wi-Fi. We offer CCTV in all public areas and 24-hour onsite management and free parking.

We are the ideal place for any event including: conferences, meetings, cocktail parties, exhibitions and trade shows. With the flexibility and modern design, our conference space can be designed to accommodate any meeting or function requirement. Please feel free to contact us to discuss your individual needs.

See reverse side for rates and room configurations.
